***Baseline Document Change Announcement***

**BDC07T-07**

**October 4, 2007**

**SUBJECT: Release of the Traffic Mitigation Guidelines  
for Work Zone Safety and Mobility**

---

The Traffic Mitigation Guidelines for Work Zone Safety and Mobility are hereby released. This document has been developed in response to the FHWA Work Zone Safety and Mobility Final Rule. The major goal is to properly manage the work zone impacts of transportation projects. This will be done primarily through a Transportation Management Plan that addresses the Traffic Control Plan, Transportation Operations and Public Information Components.

**Instructions to Designers**

All Designers should ensure that the Transportation Management Plan components are properly addressed.

**Implementation Code R (ROUTINE)**

Changes must be implemented in all applicable Department projects scheduled for Final Design Submission at least one month after the date of the BDC announcement.
